

Simplify. Solve. Share.

Improving the Way Your Work Gets Done with Xerox® ConnectKey® Apps

Xerox® ConnectKey Apps simplify everyday tasks for your organization. And with additional customization and personalization, developed for you by your Xerox Partner, these apps can help streamline your workflows, solve business issues, and share organizational communications—all via your ConnectKey enabled multifunction printer (MFP). Extend the benefit apps bring to your MFP by maximizing the investment made for your employees or guest users. Explore our new app technology and see how these easy-to-use apps can improve business efficiencies, costs, and overall user productivity; helping you to concentrate on the important aspects of your business.

Xerox® App Gallery and Xerox® Cloud Workflow Apps

Scan Apps

Scan to Email App

Your partner can create a customized and personalized one-touch email destination app for scanned documents.

Scan to Dropbox™ App

Your partner can create a customized and personalized one-touch email destination app for scanned documents.

Scan to Microsoft® Office 365™ App

Scan hardcopy documents directly to your Dropbox repository, allowing users to share documents when needed.

Scan to FTP App

Scan documents to multiple FTP destinations simultaneously. Your partner can personalize and customize this app for your workflows; making you more productive.

Scan to Shared Folder App

Scan documents to Shared Network Folders to simplify the management of your documents. Your partner can personalize and customize this app for your workflow.

Scan to USB App

This app enables scanning documents directly to your USB flash drive. Personalization and customization help to streamline this workflow.

Xerox® App Gallery and Cloud Workflow Apps

Scan to Multi-Destination App

A customizable app that simplifies your scanning workflows, giving you the ability to scan a document once and route the digitized file to multiple destinations simultaneously.

Print Apps

Print from Dropbox™ App

Access your Dropbox repository directly from your printer to ensure you're printing the most up-to-date material.

Print from Microsoft® Office 365™ Apps

Need to print while at the device? Print the most up-to-date Microsoft Office material at the point of need.

Print from URL App

Print from your own website and give users instant access to your most current material such as forms and standard company documents.

Fax Apps

Sagemcom® XMediusCLOUD Fax App

Fax, via the cloud, hassle-free, quickly, and easily. Eliminate costly analog phone lines, upgrades and maintenance costs. Prepaid fax credit bundles provide you the freedom to pay only for what you use, according to your needs.

Device Management Apps

Information App

Use your multifunction printer as a billboard to share information, drive behavior, or showcase your business. With a customized or personalized information app, you can communicate your message easily from the MFP. Contact your Xerox Partner for all of the details.

Mobile Print Link App

Simplify and streamline your Mobile Print Solution/Mobile Print Cloud app experience with QR codes.

Contact Us App

Provides a simplified way for partners to communicate with their customers through the user interface. Request service, supplies and Xerox® Eco boxes right on the Xerox® device. Enabled by your partner in conjunction with Southern Solutions.

Xerox® App Gallery and Cloud Workflow Apps

Service Update App

Foxway Service Update sends current service information from the current device to user specified email addresses. Enabled by your Xerox Partner in conjunction with Foxway.

Call Me Back App

Send a call request to a service provider with this Foxway App. Enabled by your Xerox Partner in conjunction with Foxway.
